Corporate & Foundation Relations

Natasha Cuozzo, Assistant Director, Corporate & Foundation Relations, 27697

As part of the Research crew going back to the days of the …And for Yale Campaign, Natasha comes from a long-line of family members who have worked for the University. A Nutmeg state native, she graduated with a B.A. from UConn and spent time studying in the former USSR before earning her Master’s degree in education from Southern Connecticut State University. Together with her husband, Natasha continues to experience both the joys and tribulations of home improvement projects out in the suburbs of Northford. However, when both time and resources allow, her favorite diversions include travel, amateur race car driving, biking, and ballroom & folk dancing (just one of the ways she tries to keep ties to her Russian cultural heritage).
